

| Time  | Monday                                   | Tuesday                                   | Wednesday                             | Thursday                                 | Friday                        |
|-------|--|---|---------------------------------------|--|-------------------------------|
| 9-10  | Heat and Flow Lecture                    |   |                                       |  |                               |
| 10-11 | Materials Engineering and Design Lecture | Materials Engineering and Design Tutorial | Mechanical Engineering Design Lecture |  | MM&A Tutorial                 |
| 11-12 |  | Heat and Flow Lecture                     | MM&A Lecture/Practical (6 weeks each) |  | Meh Eng Design Lecture        |
| 12-1  |  | MM&A Lecture                              |                                       | MM&A Lecture                             |                               |
| 1-2   | Flight & Spaceflight Lecture             |   |                                       |  |                               |
| 2-3   | Flight & Spaceflight Tutorial            | Heat and Flow Tutorial                    |                                       | Engineering Mechanics Tutorial           | Engineering Mechanics Lecture |
| 3-4   | Mechanical Engineering Design Lab        |   |                                       | Materials Engineering and Design Lecture |                               |
| 4-5   |  |   |                                       |  |                               |
